Dear Dr. Lederberg,

Please accept my thanks for the service you have provided to our Navy during my tour as Chief of Naval Operations. For the past four years, a time of momentous change, your unique expertise, common sense and forthright advice have helped me greatly. I especially value the task force work of the past year. Your innovative ideas will help us position the Navy to meet the challenges of an uncertain future.

Once again, on behalf of Navy men and women everywhere, thank you for your loyal support. Landess joins me in wishing you and Marguerite the very best for the years to come.

All the best,

Frank
